THAI JOURNAL OF AGRICULTURAL SCIENCE

Published by

THE AGRICULTURAL SCIENCE SOCIETY OF THAILAND

VOLUME 4 1971

CONTENTS

The efficiency of mixed and compound fertilizers containing ammonium and nitrate forms on rice.
Aroon Jugsujinda 1

Systemic insecticides for the control of the armyworm (*Leucania separata* Walker).
Neungpanich Sinchaisri 13

Identification and role of pycnidial fungi associated with rice seed.
Aruni Chantarasnit 17

Level of gonadotrophic activity in hypophysis of *Clarias batrachus* (Linn.).
Krit Mongkonpunya
Kriuk Naritoom
Vicha Sukit 29

Correlation of soil phosphorus fractions with phosphorus uptake by rice plant.
Sumon Srisomboon 39

Mulberry mosiac: An initial report for Thailand.
Tawin Srisomchai
William M. Brown, Jr. 63

Number of nuclei of the fungus causing sheath blight of rice, *Corticium* spp., for taxonomic position.
Wichian Kamjaipai
Piya Giatgong 71

Kriuk Naritoom
Vicha Sukit 29

Correlation of soil phosphorus fractions with phosphorus uptake by rice plant.
Sumon Srisomboon 39

Mulberry mosiac: An initial report for Thailand.
Tawin Srisomchai
William M. Brown, Jr. 63

Number of nuclei of the fungus causing sheath blight of rice, *Corticium* spp., for taxonomic position.
Wichian Kamjaipai
Piya Giatgong 71

Systemic control of *Cercospora* leaf spot of peanuts.
Chalermchai Prasartsee
William M. Brown, Jr. 79

The effectiveness of introduced *Rhizobium* strains on 'Rayong' peanut.
Srivan Chomchalow 85

Induction of mutations in Thai rice varieties and subsequent selection and testing of beneficial mutant lines.
S. Dasananda
P. Khambanonda 95

Observations and general considerations on rice growing in Thailand.
Tisuke Takahashi
Chob Kanareugsa
Prachern Kanchanomai
Pratieb Krasaesindhu 105

Purification and electronmicroscopic studies on the yellow orange leaf virus of rice in Thailand.
Nopporn Nabheerong
Yasuo Saito
Toshihiko Hino
Luansark Wathanakul 137

Hermetic storage of rice for Thai farmers.
R.B.L. Smith
S. Boon-Long
Y.C. Loo
S. Nutalaya
P. Pataragetvit 143

Inorganic phosphorus fractions and their relation to some chemical indices of phosphate availability for some lowland rice soils of Thailand.
Wisit Cholitkul
Edward H. Tyner 157

Preliminary study on hog production.
Charunchai Phaengtavongsa
Chao Tiantong
Sooksant Suthipholpibool 175

Efficiency of paraquat as a weed control chemical for young rubber seedlings. I. Safety of paraquat to seedlings prior to budding.
R.S. Harper 181

Cytological investigation on different species of *Oryza*.
Paibool Trachoo 187

Pathogenic variability and cytological studies of *Helminthosporium oryzae* Breda de Haan, the organism causing brown spot disease of rice.
Sanong Vorraurai
Piya Giatgong 197

Comparative study on the effect of transplanting and reseeding practices on the yield of kenaf.
Prapandh Boonklinkajorn
Prawit Krittayanawach 205

Unicellular protein production using domestic wastewater.
Michael G. McGarry 213

Efficiency of paraquat as a weed control chemical for young rubber seedlings. II. Safety of paraquat to budgrafts.
R.S. Harper
Viroj Hirunyupakorn 225

The use of kenaf in livestock and poultry rations.
Frank Pinkerton 229

Weatherine of olivine basalt.
K. Suraphibul
P. Dhabbhakul
S. Kittiyarak 241

Animal wastes, their health hazards and treatment.
Sadar Mohumad Amjad Durrani 265

Errata 271
